

CHIMNEY SYSTEMS

# FACTORY BUILT CHIMNEY EXHAUST

ThermoTek's factory built single wall and double wall chimney system is ideal for use in commercial and industrial applications which require a listed chimney system.

### Quality Construction

- 5"–16" single wall and insulated double wall stainless steel construction
- Factory tested for leaks for quality assurance
- 20 year factory warranty standard

### Robust Performance

- Rated for continuous operation at 1000°F and intermittent operation at 2100°F in the United States (UL103HT)
- Rated for continuous operation at 600°F and intermittent operation at 2100°F in Canada (ULC/ORD-C959-1993)
- Rated for continuous operation at 1400°F and intermittent operation at 1800°F in the United States and Canada (UL2561)

### Easy Installation

- No welding required—simply seal and attach V-clamps
